

Calsonic Kansei Conducts Student Internship Programs

SAITMA, Japan (August 21, 2013) – Calsonic Kansei Corporation (CK) announced that it will conduct student internship programs according to the following schedule. The objective of the programs is to provide students with opportunity to experience and understand the work at global workplace. CK conducts the programs as a part of its human-resource development activities to grow next-generation global talents.

CK has been actively taking part in the various internship programs hosted by Saitama Prefecture, including the Global Talent Internship Program, the Overseas Internship Promotion Activities, and the Job Shadowing Program for high-school students in Saitama. CK collaborates with the prefectural government to create opportunity for them to know global workplaces.

In addition to the participation in the above programs, CK provides its original internship programs for university students and graduate-school students, including the students from overseas.

CK will continue to conduct the programs proactively, which are the valuable opportunities to developing young future talent.
