## Calsonic Kansei set to exhibit at Kids Engineer 2015

Calsonic Kansei Corporation (President & CEO: Hiroshi Moriya; Headquarters: Kita-ku, Saitama-city) will once again exhibit at Kids Engineer 2015, a hands-on event for children held during the summer holidays. This year's event will be held at the Nagoya Trade and Industry Center's Fukiage Hall from July 31 to August 1.

At Calsonic Kansei's booth, children will have the opportunity to test how different fans affect wind strength, and to make pinwheels by hand. As a result, they will come to understand the role played by car radiators—an essential part of every vehicle when it drives. In addition, continuing on from last year, one part of the booth will allow children to participate in a hands-on mini car assembly experience (hands-on cockpit module assembly experience). Calsonic Kansei looks forward to welcoming children and their families to its booth.

### Details

1. Date and time  
July 31 to August 1, 2015; 9.30am to 5pm
2. Location  
Fukiage Hall, Nagoya Trade and Industry Center  
Nagoya City, Chikusa Ward, Fukiage 2-6-3

Calsonic Kansei's participation in Kids Engineer, the classes it teaches at elementary schools, and its summer holiday workshops are run by Team SKETT\*, whose members comprise volunteers from Calsonic Kansei and its group company, CK Engineering Corporation.

Through such initiatives, Calsonic Kansei aims to actively provide children with opportunities to engage in creative enterprises related to car technologies, and hopes that they will be able to experience the fun inherent in creating.

\*The name "Team SKETT" is taken from the initial letters of the Japanese words for like (*Suki*), opportunity (*Kikkake*), enjoy (*Enjoi*), create (*Tsukuru*) and team (*Tai*), and its philosophy is "to help the development of children."
