Calsonic Kansei Corporation

Calsonic Kansei to Exhibit at 2016 Automotive Engineering Exposition

Calsonic Kansei Corporation (Headquarters: Kita-ku, Saitama City, Saitama; President and CEO: Hiroshi Moriya) will participate as an exhibitor in the 2016 Automotive Engineering Exposition to be held from May 25 to 27 at Pacifico Yokohama in Kanagawa, Japan.

Calsonic Kansei develops products and technologies in line with its Corporate Vision of being “A global automotive company, inspired to be world-leading in innovation and *Monozukuri*, while contributing to a sustainable society.”

At the Automotive Engineering Exposition, Calsonic Kansei will be showcasing system solutions along the two themes of “Green & Comfort,” and introducing Calsonic Kansei’s efforts in realizing a balance between environment friendliness and driving comfort.

The main products on display are:

- **Human-Max Cockpit**
- **Systems and products for electric-drive power train, downsizing turbo engine, and high-efficiency climate control**
- **For technical exhibit, VG Fin technology for diesel engine and the exhibit which visualize the flow of water-cooled CAC coolant**
- **At Motorsports Zone, the radiator for F1 and the driver cooler for Super GT machines**

Interested parties are invited to visit the booth.
